Dear Ms. Jones:

In response to our telephone conversation on December 2, I am sending you copies of several documents concerning the Conway Robinson Memorial Forest. I believe this material will supply most of the information you may need about the historical background of the forest since it was deeded to the State in 1938. Unfortunately, I was unable to find any information on the property prior to that date.

If you would like more information concerning recent forest management activities on the Conway Robinson, I suggest that you contact the Prince William County Forester. His name and address are:

Mr. Dana Malone

It has been a pleasure to be able to assist you in your research,

Sincerely,

A handwritten signature in cursive script that reads "Candace Wyman".
