

Bridge

9/21

S.R. 646 Cedar Run

Mr. Jee

93' long

11' clear roadway

clearance 13' 8", 8T weight limit.

6022

Last Painted in 1970.

Moved once?

Don't know.

date built 9/1932

or date installed
in present location.

Highway Dept. plans to replace it

(~~1978~~) (1978)

→ Negative declaration - outline of historical
sign. done. Reviewed envtl. items.

Recommended

→ True date?

Manufacturer known?

Moved any time?

P.W. Comments in evaluation

Highway Dept. can go ahead
with construction. Contact Residency
office. Impossible to rehabilitate.
because of approach + possibility.

State + county

all agencies involved concurred - favorable communication.
County's resp.

Is a high priority. School busses 8T +
are crossing it. Substandard structure.

9/21

in Richmond.

did Evaluation on this bridge in 1978. ~~Hamley~~

W. Dennis Gilbert is envtl. coordinator
for VHD in Richmond got the comments

804 - 786 - ~~7432~~

-4305 ENVTL. QUAL.

Dennis Gilbert - Hope Berry did the evaluation -
used Newlon + VHLC.

contacted VHLC + Research Council List.

↓

Suggests contacting Howard Newlon. Res. Council.
